

# “2nd Meeting of the ECO Public and Private Sector Energy/Petrochemical Consortium/Companies”

Eco Energy Market

What is your share of the multi-billion Dollar of this Energy Project Market?

تاق بازرگانی صنایع معادن و کشاورزی ایران

فدراسیون صادرات انرژی و صنایع وابسته ایران  
Federation of Iranian Energy Export Industries

The Federation of Energy Industries of Iran in collaboration with ECO Secretariat, ECO CCI and ICCIMA (Iran Chamber of Commerce, Industries, Mining and Agriculture), is proud to announce the holding of the “2<sup>nd</sup> Meeting of the ECO Public and Private Sector Energy/Petrochemical Consortium/Companies”.

### **Background**

In the declaration made by the 3<sup>rd</sup> ECO Ministerial Meeting on Energy/Petroleum on 6<sup>th</sup> March, 2013, I.R. Iran, the issue of private and public cooperation in energy related projects was welcomed and emphasized. The Regional Planning Council –RPC, kept this issue in ECO event calendar at the following meetings during the 2014 and 2015. Eventually in 2016, the “1<sup>st</sup> Meeting of the ECO Public and Private Sector Energy/Petrochemical Consortium/Companies” took place in Iran. It was attended by the delegates from public and private sectors from the Islamic Republic of Afghanistan, Republic of Azerbaijan, the Islamic Republic of Iran, Republic of Kazakhstan, the Islamic Republic of Pakistan, Republic of Tajikistan, and Republic of Turkey, as well as delegations from the ECO-CCI, ECO-TDB, IDB and ECO Secretariat.

Following the effective and successful 1<sup>st</sup> meeting in August 2016, the Regional Planning Council–RPC, based on the decision made during the 31<sup>th</sup> meeting, has decided to organize the “2<sup>nd</sup> Meeting of the ECO Public and Private Sector Energy/Petrochemical Consortium/ Companies on **21-22 September, 2021.**

## About ECO

Economic Cooperation Organization (ECO) is an inter-governmental regional organization encompassing countries from Europe, Caucuses and Central Asia, Middle East and South Asia with more than 460 million inhabitants and over 8 million square kilometers connecting Russia to Persian Gulf and China to Europe. The overall objective of the Organization is the sustainable economic development of its Member States and the Region as a whole.

Over the past three decades or so, the ECO Member States have been collaborating to accelerate the pace of regional development through their common endeavors. Besides shared cultural and historic affinities, they have been able to use the existing infrastructural and business links to further fortify their resolve to transfer their hopes and aspirations into a tangible reality.

## Energy Policy of ECO

Enhancing the energy security and sustainability through wider energy access and trade within the ECO Region and beyond is among the top priorities within ECO. Energy demand is growing in pace with the socio-economic development of ECO Member States, requiring adequate, efficient and equitable provision of energy services. In this connection it is imperative to develop and consolidate common efforts to ensure regional energy sustainability and resilience, in line with ECO Decade for Enhanced Energy Cooperation (2013-2022), projected ECO Plan of Action for Energy/Petroleum Cooperation (2016-2020), Global Sustainable Development Goals, and in coherence with other energy related activities and projections envisaged in the ECO Vision 2025. Accordingly, energy

trade, including regional electricity trade; uplifting the renewable energy share in the ECO Region energy profile; enhancing the energy interconnectivity and ensuring affordable access to all sources of energy are among the targets pursued by ECO.

### Conference Objectives

The major objective of the conference is to provide a “win-win” platform for all 10 ECO member countries. In special, the conference aims to enhance private sector regional companies’ performance by creating consortiums involving regional and international junctions.

In short, the conference is intended to:

- Showcase opportunities, projects, capabilities and financial facilities to ECO member States and regional private sectors
- Create a database for projects, financial facilities and contracting companies to make it available to participants
- Organize B2B meetings and to create active corresponding taskforces in the following sectors:
  - Oil & Gas
  - Electricity
  - Renewable Energies
  - Water & Wastewater
  - Petrochemicals
  - Mining
  - Transportation
  - Related Products

## About the Organizers

The Federation of Energy Industries of Iran in collaboration with ECO Secretariat, ECO CCI and ICCIMA and in affiliation with Ministry of Oil and Ministry of Power is responsible for the holding of the "2<sup>nd</sup> Meeting of the ECO Public and Private Sector Energy/Petrochemical Consortium/Companies"

The major concern for the organizers is to provide a win-win platform for all participants coming from 10 different ECO countries and to specifically serve the private sector companies to find partners and benefit from projects in the whole region.

## Participants

- Iranian Oil and power ministers
- High level ECO secretariat
- High level Energy authorities from ECO member states
- High level authorities from Iranian and ECO region Chamber of Commerce
- ECO region ambassadors and high level policy makers
- Director of the ECO Trade and Development Bank (ETDB)
- Director of the Islamic Development Bank (IDB)
- Director of the Asian Development Bank (ADB)
- High level delegates from European energy companies
- CEOs from many private Iranian and ECO region energy companies
- Academic from European and ECO region countries
- Etc.

## Why participate?

- Considering the great energy potentials in the ECO region, creating cooperating mechanisms such as consortiums brings prosperity to private and public companies in the region as well as people and governments receiving the services.
- Regulating and organizing required contracts for major projects in the region, help better understanding of flow of energy and provides better opportunities for international financing organizations to invest.
- Establishment of these energy consortiums speeds up and facilitates the erection of major projects in the ECO region and helps the recipients of infrastructural projects to make their selections in an orderly manner .
- Organizing cooperative mechanisms in the ECO region facilitates design and definition of major regional projects and helps strategic decision making.
